## A BRIEF INTRODUCTION

First and foremost I am a creative person working and living in Dublin. I am currently studying for my masters in TCD in Interactive Digital Media. I am a hardworking, friendly, curious, funny and reliable. I am a team player but also have the initiative to work on my own.

## MY EDUCATION

**M.Sc. Interactive Digital Media**  
2012 - present

Trinity College Dublin.

**Bachelor of arts in visual communication**  
2.1 Honours degree (4 years)

Dublin institute of technology

## MY EXPERIENCE

### FREELANCE

2008 - Present

For the past few years I have been involved as a freelance graphic designer and illustrator. Working on projects ranging from illustrating children's books to creating brand identity for a major postproduction company. Other projects include website illustrations, business cards, posters, leaflets, etc.

Working freelance has given me the added confidence and experience to make decisions. It has also improved my communication skills with clients and given them the confidence to trust me with their design needs.

### THE BRAND UNION (Pembroke Street)

Sep 2010 - Sep 2011

I was the first college graduate to undergo the one year work placement scheme in TBU. My year in TBU was an intense year and taught me a masterclass in Branding. It was very much a hands on year. I was involved in a major rebrand (Electric Ireland) I also got to work for such clients as GAA,

National Lottery, Glenilen, EODS to name a few. I gained valuable experience working under some of Ireland's top creative directors. I feel very privileged to have worked at TBU and was taught "to love your work"

### DRAWINGINC (Sandyford)

Aug 2011 - Jan 2012

Drawinginc are very much a digital agency. During my 6 month period I learnt how to design websites using wordpress, given an insight into designing apps for the Ipad. I was also involved in the design for "Letters to santa" app. On a day to day basis I dealt with clients such as Pfizer, Biotech and Capespan.

### CLEVERBUG (Ranelagh)

July 2012 - December 2012

I was hired by Cleverbug as a Freelance Senior Designer. My main role was to produce a series of illustrations and designs for their greeting card services.
